-38. The method of Claim 23 for use in the prevention of colorectal cancer.--

REMARKS

Claims 1-20 were originally in the subject application. Claims 21-22 were added by a Preliminary Amendment filed on October 10, 1996.

A lack of unity rejection/restriction requirement between compounds, pharmaceutical compositions and methods of use, was made in a telephone conversation with the Examiner. Applicants elected, with traverse, the methods of use claims (Claims 16-22).

Claims 16-17 have been amended, and new Claims 23-36 have been added, to correspond in subject matter with the compounds allowed in US Patent Nos. 5,466,823, 5,521,207, 5,508,426, 5,504,215, 5,516,907 and 5,510,495.

It is respectfully submitted that this case is now in condition for allowance. Accordingly, allowance of Claims 16-20 and 23-36 are respectfully requested.

Respectfully submitted,

Joseph W. Bullock
